# CYBER SECURITY CONFERENCE

LEGAL & POLICY ISSUES  
FOR NATIONAL SECURITY,  
LAW ENFORCEMENT & PRIVATE INDUSTRY

MARCH 18 – 19, 2010  
ST. MARY'S UNIVERSITY SCHOOL OF LAW

## CONFERENCE FOCUS

This first of its kind conference presents a unique opportunity for leaders in law enforcement, Department of Homeland Security (DHS), Department of Defense (DOD), and the business community to receive critical information on the full range of issues – legal and policy – related to cyber security. Because of the nation's dependence on the cyber world, cyber security is a matter that directly impacts all levels of society. Not only will internationally recognized subject matter experts provide the latest developments regarding the threat posed by cyber attacks as it impacts national security, law enforcement, and the business community, the conference will also concentrate on identifying all of the myriad legal and policy challenges associated with each of these fields of interest. In addition, participants will receive actionable information regarding cyber security solutions and future trends to include the need for increased cooperation between DHS, DOD, law enforcement and the public sector.

## CONTINUING LEGAL EDUCATION (CLE)

The Texas Bar has approved 9 Continuing Legal Education Credits (CLE). TCLOSE Credits (Pending).

## EVENT THEMES

Six Main Conference Themes:

- Cyber threats posed by nation-states, al-Qaeda-styled terror groups, sub-State terror groups, "lone-wolf" terrorists, and criminals.
- Specific cyber threats to American business sectors that are deemed part of the nation's "critical infrastructure," e.g., energy, petrochemical, electric utilities, communication, transportation, health, banking and finance, agriculture, water, and shipping.
- Criminal law enforcement mechanisms to investigate and prosecute cyber attacks to include the 1984 Counterfeit Access Device & Computer Fraud and Abuse Act.
- The development of government and private sector partnerships and the tension between "engagement and regulation."
- Comprehensive review of the national security operational doctrine and functional tools necessary to conduct cyberwarfare.
- Emerging field of "cyber premises liability" against businesses that suffer a cyber attack.

## WHO SHOULD ATTEND

This conference is designed for law enforcement, Department of Defense, corporate security managers, and Department of Homeland Security.

## ABOUT THE CENTER FOR TERRORISM LAW

Founded in 2003, the Center for Terrorism Law is a nonpartisan, nonprofit, Section 501 (c) (3), academic institution dedicated to the study of current and potential legal issues related to terrorism. Housed in a \$700,000 fully operational research facility, the Center is affiliated with a variety of strategic institutions - educational, government, military, and business - to address issues that have impact across multiple disciplines related to homeland security concerns.

## SPONSORSHIP OPPORTUNITIES

The Center for Terrorism Law invites corporations, professionals, and entrepreneurial entities to join in the sponsorship of the Center for Terrorism Law and this groundbreaking event.

**Platinum Sponsorship** is \$10,000 (10 admissions).

**Gold Sponsorship** is \$5,000 (5 admissions).

**Silver Sponsorship** is \$2,000 (2 admissions).

All donations to the Center for Terrorism Law are tax deductible. [Section 501 (c) (3)]
